

# KaiBosh™

**Concentrated Hospital-Grade Disinfectant for MRSA, Bird Flu, Norovirus and more**

---

## Disinfect, Clean and Deodorize in one step

KaiBosh is a concentrated no-rinse Hospital Use disinfectant cleaner that disinfects, cleans and deodorizes in one labor saving step. Its phosphate-free formulation effectively cleans, deodorizes and disinfects areas of importance in controlling cross-contamination. It is a complete chemically balanced non-acid disinfectant/sanitizer that rinses freely, leaving behind no grit or soap scum. KaiBosh cleans, shines, deodorizes and disinfects hard, non-porous surfaces, and may be applied through Kaivac No-Touch Cleaning™ systems, spray bottles, automatic washing systems, immersion tanks, foaming apparatus, low-pressure sprayers, and fogging systems.

## “Killer” Cleaner

Designed as a one-step disinfectant cleaner, KaiBosh is effective against a broad spectrum of bacteria. It is virucidal (including MRSA, AIDS, Norwalk/Norovirus, Hepatitis B and C, Avian/Bird Flu, and more) while inhibiting bacterial growth on moist surfaces. It also deodorizes by killing microorganisms that cause offensive odors. Able to cut through grease and grime, it doubles as an excellent cleaner that leaves restrooms, kitchens, and other areas fresh smelling and free of contaminants.

## Put the KaiBosh to it

Best for washable hard non-porous surfaces, KaiBosh addresses numerous applications such as: toilets, urinals, empty diaper pails, portable and chemical toilets and latrine buckets, porcelain tile and restroom fixtures, food contact surfaces, food preparation and storage areas, sinks, floors, walls, countertops, shower stalls, shower doors and curtains, bathtubs and glazed tiles, chrome plated intakes, glass, metal, stainless steel, glazed porcelain, glazed ceramic, granite, marble, plastic (such as polystyrene or polypropylene), sealed limestone, sealed slate, sealed stone, sealed terra cotta, sealed terrazzo, chrome and vinyl, tables, chairs, waste receptacles as well as many other hard non-porous surfaces.

## Highlights:

- EPA Registered Hospital Use Disinfectant (EPA REG.NO.10324-93-71665)
- Protects against a wide variety of bacteria and viruses
- Excellent cleaner for restrooms, kitchens and more
- Works in Kaivac No-Touch Cleaning™ systems, spray bottles and numerous other applicators

## Facility types:

- Education
- Healthcare
- Retail
- Hospitality
- Transportation
- Day care
- Industrial
- Food Service
- And More

### Virucidal Performance:

**\*At 2 ounces per gallon use level (703 ppm active quat), this product was evaluated in the presence of 5% serum with a 10 minute contact time and found to be effective against the following viruses on hard non-porous environmental surfaces:**

Avian influenza A H9N2/Turkey/Wisconsin virus  
Avian Reovirus  
Bovine Viral Diarrhea virus  
Canine Distemper  
Canine Coronavirus  
Equine Arteritis Virus  
Hepatitis B Virus (HBV)  
Hepatitis C Virus (HCV)  
Herpes Simplex Type 1  
HIV-1 (AIDS Virus)  
Human Coronavirus  
Infectious Bronchitis Virus  
Norwalk/Norovirus  
Infectious Avian Laryngotracheitis  
Infectious Bovine Rhinotracheitis virus (IBR)  
Influenza A2/Japan virus  
Newcastle disease virus Porcine Respiratory & Reproductive Virus (PRRSV)  
Porcine Rotavirus  
Pseudorabies virus  
Transmissible Gastroenteritis (TGE)  
Vaccinia virus

**\*At 2.5 ounces per gallon use level, this product is found to be effective against the following viruses on hard, non-porous environmental surfaces in the presence of 5% serum with a 10 minute contact time:**

Canine Adenovirus  
Canine Parainfluenza Virus  
Feline Calicivirus  
Feline Infectious Peritonitis  
Feline leukemia virus  
Feline Panleukopenia  
Feline Picornavirus  
Feline Rhinotracheitis  
Infectious Canine Hepatitis Virus  
Murine Parainfluenza virus type 1  
Rabies virus

**\*At 8 ounces per gallon use level (or equivalent dilution), this product was evaluated in the presence of 5% serum with a 10-minute contact time and found to be effective against the following viruses on hard, non-porous environmental surfaces:**

Canine Parvovirus (CPV)  
Minute virus of Mice (Parvovirus)  
Porcine Parvovirus

### Bactericidal Performance:

**\*Add 2 ounces of this product to one gallon of water (703 ppm active quat). Treated surfaces must remain wet for 10 minutes. At this use level, this product is bactericidal according to the AOAC Use Dilution Test method on hard inanimate surfaces modified in the presence of 5%**

**organic serum against:**

Campylobacter jejuni  
Corynebacterium ammoniagenes  
Enterobacter aerogenes  
Enterococcus faecalis  
Escherichia coli  
Klebsiella pneumoniae  
Listeria monocytogenes  
Pseudomonas aeruginosa  
Salmonella choleraesuis  
Salmonella schottmuelleri  
Salmonella typhi  
Shigella dysenteriae  
Staphylococcus aureus  
Streptococcus salivarius  
MRSA - Staphylococcus aureus (Methicillin-resistant)

### Fungicidal Performance:

Aspergillus niger  
Trichophyton mentagrophytes
